Statistics - Public Libraries, 1983..... 47

INTRODUCTION

The primary source for the information published in this directory is compiled from public library annual reports submitted to the Maine State Library. This provides a useful guide for a local library to compare its basic operation with other libraries and also gives an overall picture of public library operations in Maine.

This is not a complete picture of library service in Maine. Statistics reflecting school, academic and special library activities are not reported to the Maine State Library. Also, there does not yet appear to be a readily acceptable statistical measurement which adequately indicates in-library service to patrons - such as reference, use of periodicals, special programs, etc.

Users of the directory are invited to suggest ways to improve or expand future editions. Please forward comments to Library Development Services, Maine State Library, State House Station 64, Augusta, Maine 04333.
